Quality Sweeping

We take the time to do the job right! Our crews do not have time limits they stay until the job is done.

Part of our regular service includes blowing the sidewalks, cleaning the corners and curbs to give a polished look.

ABOUT US

Bloomfield Parking Lot Maintenance, Inc. (BPLM) was started in July 2000 by Kirk Bloomfield. He began the business with the philosophy that he would do a good job every single time for every single customer at a fair price. He felt this would build customer satisfaction in the company and enable him to keep customers long-term. Years later he has seen that philosophy work! He even got an added benefit that he wasn't expecting —the customers were so satisfied that they spread the word about BPLM and have become his greatest sales & marketing tool.

Prior to starting BPLM, Kirk had 5 years experience working in the sweeping and snow plowing industries as well as 2 years experience working in the landscaping industry.

In 2002, BPLM added snow plowing to the list of services that it provides. Every year we add additional equipment to keep up with the growing customer base.

We continually reinvest into the business so that BPLM can have modern state-of-the-art equipment and the best equipment for the job. After all, one our goals is to ensure that our customers have an attractive and safe site.

Weekly Maintenance Programs

Secondary Heading

Regular Sweeping can help:

- Reduce the chance of slip and fall incidents.
- Reduce damage to the asphalt surface caused by excess loose gravel which can lead to expensive repairs.

The addition of more value-added services for our customers will help us meet our goal to grow our business and maintain the standard of excellence that we take pride in today.

A well maintained property is the first step in good marketing. It provides your customer with a positive impression of your business.

As part of the regular sweeping services we provide the following:

- **Sidewalks** - Our crews use state-of-the-art back-pack blowers to clean sidewalks free of debris.
- **Trash cans** - We empty and replace the bag in your trash cans every time we sweep. This helps to eliminate overflow, odors and insects.
- **Curbs & corners** - The curbs & corners are hand-blown.
